PERSONAL PROJECTS

JustWeather-(<https://just-weather-express-app.vercel.app/>)

- Introducing a sophisticated weather application crafted using HTML, CSS, and JavaScript, seamlessly powered by Node.js and Express.js with HBS templates and a RESTful API. This innovative solution offers real-time weather updates for cities across the globe, combining sleek design with reliable functionality. Experience the convenience of accurate weather information at your fingertips, making your daily planning a breeze.

Mern E-CO-Shop App - (<https://muddy-trunks-colt.cyclic.cloud/>)

- Developed and deployed a fully functional MERN Ecommerce application utilizing contemporary technologies including React, MongoDB, Express, and Node.js, enhanced with Tailwind CSS for seamless design. Implemented a comprehensive admin panel for efficient management of the app's structure and operations.

Personal Portfolio(<https://personal-portfolio-rhoblush.vercel.app/>)

- Embark on a journey through my personal web developer portfolio, meticulously curated to showcase my diverse skill set and creative prowess. Discover a collection of captivating projects, each a testament to my expertise in HTML, CSS, JavaScript, and beyond. Aspiring freelancers, explore this platform to unlock collaboration opportunities and witness the fusion of innovation and functionality.

CERTIFICATES

Python Programming (06/2020)

have been awarded with Python programming certification, demonstrating my proficiency with this all-purpose language and my capacity to create effective and reliable programs using Python.

Full Stack Web Development (06/2022)

I have been awarded with Full Stack Web Development certificate, demonstrating my proficiency with creating cutting edge website with functional webpages, MongoDB, NodeJS

My SQL Certification (2023)

My accomplished MySQL certification has equipped me with comprehensive foundational expertise in effectively managing and structuring databases. This certification showcases my adeptness at organizing data, ensuring seamless retrieval, and optimizing database performance, a skill set ready to elevate any data-driven project I undertake.
